

The Heavy Equipment and Rigging Specialist is responsible for performing various assessments and construction-related liaison for the task force during incident operations. The Heavy Equipment and Rigging Specialist will report directly to the Rescue Team Manager.

The Heavy Equipment & Rigging Specialist is responsible for:

- Assessing the need for and capabilities of various construction-related equipment to assist task force personnel in US&R activities.
- Identifying various rigging techniques to assist in the rescue of victims or stabilization of collapsed buildings
- Interacting with and coordinating efforts between the task force personnel and heavy equipment and crane operators.
- Adhering to all safety procedures
- Accountability, maintenance, and minor repairs for all issued equipment
- Performing additional tasks or duties as assigned during a mission
